Your Guide to Armory Week's 33 Best Exhibitions

Let's face it, there's only so much time you can spend walking The Armory Show's aisles. But, New York's most jampacked week of art doesn't stop at 12th Ave. To help guide you through the best of Armory's collateral exhibitions—and some worthy ones outside the official programming too—Artsy deployed its staff on a mission this week: see and review as many shows as possible (listed alphabetically by gallery name) in only one sentence. You're welcome.

Hadieh Shafie is one of those artists that begs you to get up close and look at the materials, the detail, and recognize the sheer force of intention with which every decision in every work was made. —B.S.
